## AUDIO AND VISUAL MEDIA POLICY

Skokie Public Library staff may take photos, videos, or audio recordings when patrons are present in the library, during events, at bookmobile stops, and other locations throughout the community.

These photos, videos, and audio recordings may be used in print or digital materials created by the library, including on our website, podcasts, and social media sites. Individuals who do not wish to be photographed or recorded must inform library staff.

Photos, videos, and audio recordings taken by staff are the property of Skokie Public Library and may not be used by others except with written permission. The library may share watermarked images with presenters, performers, partners, or patrons in some circumstances by request. These photos may only be used with the copyright information that credits the library. Only images of the requesting party will be shared. The library will not share images of patrons with third parties unless the third party secures and provides the library with a separate photo release executed by the patron.
